Professional Summary

Computer Science graduate with hands-on experience in full-stack web development and software engineering, with additional expertise in software testing and quality validation. Skilled in React.js, Node.js, Express.js, Python, Flask, JavaScript, SQL, MongoDB, REST APIs, and Kotlin. Experienced in developing real-world applications, integrating APIs, debugging and optimizing applications, and performing API, functional, performance, security, and end-to-end testing using tools such as Postman, Playwright, and Apache JMeter.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, TypeScript, .Net
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js, Flask, REST APIs
- **Databases:** MongoDB, PostgreSQL, DBMS Concepts
- **Testing & QA:** Postman, Playwright, Apache JMeter, Chrome DevTools
- **Libraries:** Pandas, NumPy, Scikit-learn
- **Tools & Platforms:** Git, Linux, Android Studio
- **Development Methodologies:** Agile, Scrum, SDLC, Sprint Planning
- **Project Management & Collaboration:** Jira

Education

Rajarajeshwari College Of Engineering, Bengaluru
Bachelor of Engineering in Computer Science Dec 2022 – Jul 2026
CGPA: 7.6/ 10.0

Nisarga Independent PU College, Kollegal
PCMB (Pre-University) Mar 2020 – Apr 2022
Percentage: 73.83%

Adarsha Vidhyalaya School, Kollegal
SSLC Mar 2019 – Apr 2020
Percentage: 86.4%

Experience

Full Stack Developer – Electrobtech Innovations Pvt. Ltd. (Present)
React.js, Node.js, Express.js, MongoDB, REST APIs, Postman, Playwright, Apache JMeter

- Developed and enhanced frontend and backend features, integrated REST APIs, implemented responsive UI components, and worked with database-driven application workflows.
- Performed comprehensive testing including Functional, UI/UX, Responsive, API, Accessibility, Security, Performance, Integration, and End-to-End testing using Postman, Playwright, Apache JMeter, and Chrome DevTools.
- Gained hands-on experience working on a real-world production application, collaborating with developers, debugging issues, validating features, optimizing performance, and contributing to overall application quality and release readiness.
- Developed reusable and responsive components using React.js and integrated frontend functionality with backend REST APIs for seamless data flow.
- Worked with MongoDB and Express.js to support backend operations, API development, data handling, and debugging of application workflows.

Android App Developer Intern – Mind Matrix (Feb 2026 – May 2026)
Kotlin, Android Studio, Jetpack Compose, MVVM, Room Database, Retrofit, OkHttp

- Developed Android applications using Kotlin and Jetpack Compose, implementing responsive and user-friendly mobile interfaces.
- Implemented application features using MVVM architecture and Room Database, with API integration for efficient data communication and local data management.
- Gained hands-on experience in real-world Android application development, including UI development, debugging, testing, API integration, and application optimization.

Projects

Skill Swap - Full-Stack Web Application
Python, Flask, Pandas, NumPy, Java Script

- Developed a full-stack web application using HTML, CSS, and JavaScript for the frontend and Flask (Python) for the backend.
- Integrated PostgreSQL for efficient data management, including user profiles and skill listings. Built and connected RESTful APIs for authentication, skill sharing, and user interactions.
- Implemented real-time chat, video conferencing, and community forums to enhance collaborative learning experiences.

Namma-Kathey National Pride – Android Application
Kotlin, Android Studio, XML, MVVM, JSON, Google Maps API

- Developed an Android educational storytelling application that promotes Karnataka's cultural heritage through district-wise hero stories in Kannada and English.
- Implemented interactive swipe-based storybooks, Text-to-Speech narration, quizzes, and Heritage Badge rewards to enhance user engagement and learning.
- Designed an offline-first architecture using local JSON storage and Google Maps integration for hero memorial and statue location tracking.
